**Indications:** For the temporary relief of skin rashes, itching skin, sores, swelling, inflammation, red and swollen skin, scaling, and painful burning of the skin.

Conventional rash treatments typically are chemical-based, and are very messy to apply and to clean up. In fact, most rash remedies are virtually identical to each other, utilizing zinc oxide in a cream. Topical application of conventional remedies by hand, whether on yourself or to another adult if you are a care-giver is neither an easy nor pleasant job. The application of these creams by hand can further irritate the skin.

**Adult Rash Relief:** Skin rashes can be an inconvenience to some adults and debilitating to many others. Most people get rashes typically in areas where their clothing absorbs moisture and rubs against their skin almost like sandpaper. Whether the rash is from exercise, work, or incontinence STOP RASH spray eliminates the need to touch the affected area of skin and cause further irritation.

**Economical:** Stop Rash uses a very economical spray atomizer that can provide up to 325 sprays per bottle, which can represent between five and ten times more applications than a tube of conventional rash cream.

## **Seagate News:**

**Price Reduction:** (as of April 1st): Carrot & Garlic 100 and 300 caps are half price due to efficiencies on the farm and in processing.

**New Product Development** - Seagate is experimenting with a mixture of our Fish Fertilizer and Seaweed to create a fertilizer in a tablet form. This will make it easier to apply to house plants and the small plants in your garden.

**Seagate's Loyalty Rewards program:** earn 5% on referred sales from your friends that can be used to discount your future purchases on Seagate's website. It is all calculated automatically. Just email them your Rewards code found in your account on our website. First time orders by your friends will receive an additional \$5.00 off.
